

# Technical Project Associate 100%

Immediately or by arrangement, Location Zürich, Switzerland

Become a part of our project team and contribute your expertise to support renowned international clients in the implementation and operation of our P'X Solution Suite.

## What You'll Do

You thrive on challenges and possess the know-how, motivation, ambition, and capability to provide long-term assistance to our clients in demanding projects.

## Your main responsibilities include

- Implementing, executing, and defining processes within the internally developed P'X Solution Suite.
- Collaborating on introduction projects and subsequent projects from existing customers, along with the opportunity to take on sub-projects.
- Commissioning the P'X Solution Suite and providing 3rd-level support.
- Establishing connections to diverse subsystems such as ERP, PDM, CRM, etc.

## Why You'll Succeed

- You possess excellent scripting skills (e.g. Python, Perl, XML, or similar).
- Ideally, you also have strong SQL skills.
- You have a strong technical affinity and enjoy working with complex, heterogeneous systems and programming.
- Fluent German and English language skills complete your profile

In addition to a collegial and familial work atmosphere within a Swiss SME, we also offer you a multitude of additional benefits to enhance your workday

- Home office option
- Shower facilities for sports enthusiasts
- Tram stop directly by the office
- Bicycle-friendly neighborhood
- Modern workspaces
- Flat hierarchies
- Multicultural team
- Company events
- Coffee & sweets
- Beverages and snacks
- Employer share BVG 70%
- Employer share KTG/UVG 100%

## About Perspectix

Perspectix AG in Zurich implements sophisticated software solutions for technical sales and shop planning. Since its foundation in 1996, the company has continuously developed into the technologically leading solution provider for sales and project planning of variant-rich products. Users of the P'X Industry Solution benefit from experience in complementary user industries: Mechanical engineering, plant construction, electrical engineering, furnishing, shopfitting, warehouse and logistics systems. With the P'X Retail Solution, users receive a customised solution for shop planning, assortment design and branch evaluation. Because of the combination of sales optimisation, graphical project planning and product lifecycle management in a future-oriented technology, Perspectix is today a strategic supplier of well-known manufacturers and retail chains as well as a partner of leading IT houses.
