

## IT Developer P'X Solutions 100%

Immediately or by arrangement, Location Zurich, Switzerland

### What we plan to do together

Become part of our interdisciplinary team at our headquarters in Zurich.

Support well-known international customers in the introduction and operation of our P'X Solution Suite (CAP/3D configurator).

### What you do with us

The further development of the P'X Solution Suite for the digitalization of customer processes and products:

- As a competent contact person for our customers, you will support projects in an advisory or management role
- Supporting the customer's team of authors in the further development and optimization of existing system functions
- Independent conception and estimation of the implementation effort
- Independent programming in the authoring environment
- Support in testing the programmed adaptations/extensions based on user stories
- Documentation of the adaptations made
- Commissioning of the P'X Solution Suite and 3rd level support
- Conception, implementation, and support of interfaces to other systems and databases (ERP, PDM, CRM etc.)

### What convinces us

First and foremost, your personality: independent and autonomous way of working, healthy assertiveness and strong negotiating skills. You are also characterized by a high degree of analytical thinking and the ability to structure and abstract. Last but not least, you have a high technical affinity and enjoy working with complex, heterogeneous systems.

You have successfully completed a degree in computer science/industrial engineering or engineering with a focus on computer science or have completed training in a similar profession.

Several years of professional experience, ideally in the field of consulting and implementation of customer-specific software solutions, in which you have independently taken over the technical implementation.

You have a very good understanding of XML as a metalanguage. In addition, you have very good scripting (JavaScript, Python, etc.) and SQL skills and are familiar with development environments (IDE) such as Eclipse or Visual Studio. Basic knowledge of CAD is desirable.

**Interested? Then apply now and become part of our innovative team!**

In addition to a collegial and familiar working atmosphere in a Swiss SME, we offer you several other benefits that will improve your working day:

- Home office possible
- Bicycle-friendly city district
- Multicultural team
- Drinks and snacks
- Shower for sports enthusiasts
- Modern workplaces
- Company events
- BVG 70/30
- Streetcar stop right next to the office
- Flat hierarchies
- Coffee & sweets
- 100% accident & sick pay insurance

### About Perspectix

Perspectix AG in Zurich realizes sophisticated software solutions for technical sales and store planning. Since its foundation in 1996, the company has continuously developed into a technologically leading solution provider for the distribution and project planning of products with many variants. Users of the P'X Industry Solution benefit from experience in complementary user sectors: Mechanical engineering, plant engineering, electrical engineering, furnishing, store fitting, warehousing and logistics systems. With the P'X Retail Solution, users receive a customized solution for store planning, product range design and store evaluation. Thanks to the combination of sales optimization, graphic project planning and product lifecycle management in a forward-looking technology, Perspectix is now a strategic supplier to well-known manufacturers and retail chains as well as a partner to leading IT companies.
